ABOUT ME

A self taught designer and developer with experience in various elements of the web world with speciality in creating bespoke Wordpress sites, server maintenence and setup, and front end design and development. I'm a creative, self starter who is eager to learn and thrives in a creative environment, and I'm a nerd. Every office needs a nerd.

EXPERIENCE

2017 - 2018
SWITCHSTANCE
SHEFFIELD, UK
FRONT END DEVELOPER

Creating responsive websites from designs, and cross browser testing using browserstack.
Setting up and maintaining servers, and ensuring they are secure.
Ensuring WP installs are up to date, and backups are being created using a cron and AWS.
Support for various customers, and drinking a lot of tea.

2015 - 2017
AIRSHIP
SHEFFIELD, UK
JUNIOR FRONT END DEVELOPER

Creating responsive websites from designs, and cross browser testing.
Maintaining existing sites created in Wordpress, Expression Engine, and Craft CMS systems.
Setting up and maintaining servers, and ensuring they are secure.
Support for various clients, and providing film and television suggestions for co-workers.

2014 - 2015
SYMPHONY
BARNSLEY, UK
APPRENTICE WEB DEVELOPER

Responsible for database upgrades
Cross browser testing
Support for dev team and staff.
Learned about agile development, and scrum boards, using Jira and Confluence and remains Tetris Office Champ
